A diverse workplace improves performance, drives innovation and creativity, and helps businesses be more competitive and profitable. But implicit bias can undermine efforts to grow a diverse workforce. We all have biases, and the challenge is to recognize these biases and minimize their effects by thinking clearly and critically. Miller & Martin will discuss what implicit bias is, how it can influence workplace and recruitment decisions, and strategies to recognize and minimize bias to maximize efficiency in the workplace.

Don't miss this opportunity! Sign up today!
